

friday night DONE RIGHT

No alcohol. No dope.

f Like us on facebook and let us know what you do on Friday night.

What is Friday Night Done Right?

Friday Night Done Right is a social norming campaign that informs teens about the REAL statistics regarding alcohol and drug use. Using drugs is not the “norm” for youth in our community.

Through school and community support, we are celebrating our students who are making positive decisions about their free time and strive to provide them with drug-free options for their Friday nights.

How Can YOU Help? Research shows that youth who feel supported by their community are less likely to use substances.

You can help by celebrating their successes, promoting prosocial activities for youth to engage in, creating reward and recognition programs and by sponsoring **Friday Night Done Right** activities. We need partner organizations and businesses to donate time, space, promotional goods, and their resources so that we can ensure our youth have **Friday Nights Done Right!**

Let's Celebrate Our Youth Together!

81% of Volusia High School students who reported receiving A's and B's also reported NEVER using drugs or alcohol.

They are counting on you!

What is Our Goal? To decrease the amount of middle and high school youth with “Mostly D’s and F’s” who also report past 30-day substance use by 5% while increasing the number of students who do well in school.
